

TRUCKROLL TRX-4P

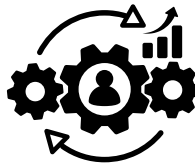

Align the field. Accelerate performance.

Revolutionizing Utility-Scale O&M Truckroll Efficiency. TRX-4P is the proprietary 4-pillar assessment framework designed specifically for utility-scale solar, wind, BESS, and EVSE Operations & Maintenance teams.

Stop reacting. Start optimizing truckrolls with **People • Process • Performance • Purpose**

PROVEN RESULTS

Improve efficiency by 10-25% and First Time Fix Rate (FTFR) to >75%

Protect revenue risk and reputation

Shift maintenance from corrective to ≥70% preventive/predictive

Improve technician engagement and retention

HOW TRX-4P WORKS

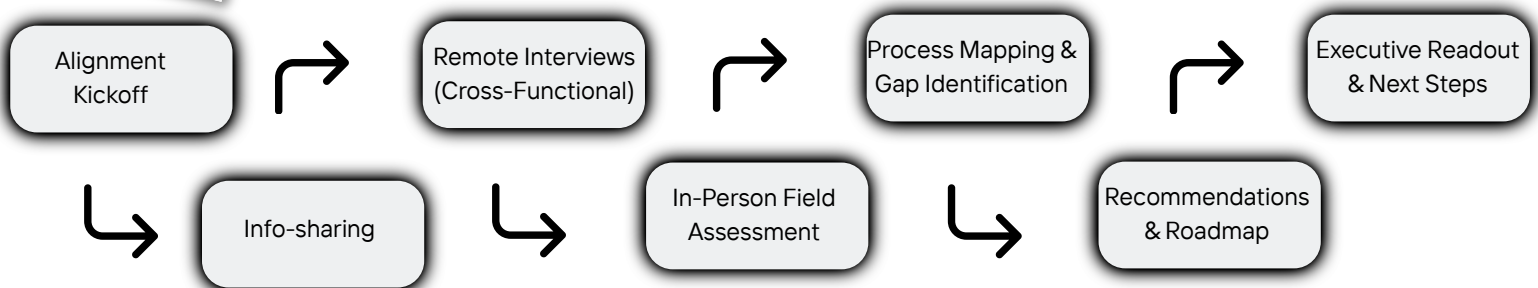

Comprehensive Assessment [80 targeted sections across the four pillars]

Objective pillar scores for each pillar and overall TRX-4P Index

Detailed Report - Strengths, weaknesses, justifications, and recommended actions

Actionable Roadmap – Prioritized improvement plan tailored to your organization

Benchmarked against industry peers and leading research including: NREL, LBNL, IRENA, EPRI
